

10 MUST-DOS

when moving into your new home

- Locate the water main and electrical panel.
- Clean the floors, walls, cupboards and cabinets.
- Change the locks, including your mailbox lock.
- Replace smoke detector and carbon monoxide detector batteries and install fire extinguishers.
- Change your address, if you haven't already.
- Have an electrician inspect all outlets.
- Carry out essential work identified in the inspection report.
- Pay the transfer duties.
- Make a plan and measure the rooms and windows.
- Meet your neighbours and enjoy your new life!
