

A simplified way to send notices!

Simple Notice

Simple Notice is a tool from your real estate broker.
Be informed as soon as a notice of fulfilment of
conditions is issued.

1. How does Simple Notice work?

A rigorous process

All notices sent will generate a report that establishes the exact time the recipients received the email. Timestamping and email server confirmation legally validate the transmission.

2. A few advantages

Simplicity

Activating Simple Notice takes only one click, as does approving the sending of a notice. You will be kept informed of important steps.

Speed

Eliminates delays by sending information simultaneously to all parties and their broker, by email and text message.

Confidentiality

Ensures the security of your personal information during the process. Your contact information will only be visible to you and your broker.

3. Ask your broker for Simple Notice!

An activation email will be sent to you. Confirm your participation in one click.

Need help? Your real estate broker will be able to answer all of your questions about Simple Notice. Feel free to contact your broker.
